**Subject:** ICYMI - EPA releases data for Aug. 5-9 for Animas River

In case you missed it – EPA released data last night from Aug. 5-9 which shows that water quality for the Animas River from the Silverton, Colo. area to the Durango municipal water intake has returned to pre-event water quality levels.

EPA plans to continue to monitor, analyze and share data for downstream river segments as it becomes available.

Data, trends and map here: <http://www2.epa.gov/goldkingmine/epa-statement-colorado-data-gold-king-mine-release>
